

# INTELLIGENT FLOOD WARNING

Early Warning, Better Protection

eWars Intelligent Flood Warning System is a smart and reliable solution designed to detect water level rise, issue early alerts and deliver real-time information to help communities act faster and stay safe.

- 

**FLOOD SIREN**  
High power siren delivers loud and clear alerts.
- 

**LIVE MONITORING**  
Integrated camera for real-time monitoring.
- 

**LIGHT WEIGHT**  
Only 65kg for easy handling and transport.
- 

**EASY TO DEPLOY**  
Quick installation with minimal tools.

## SMART ALERT, REAL IMPACT

## KEY FEATURES

- 

**Multi-Parameter Monitoring**  
Water level, rainfall, battery status, and system health.
- 

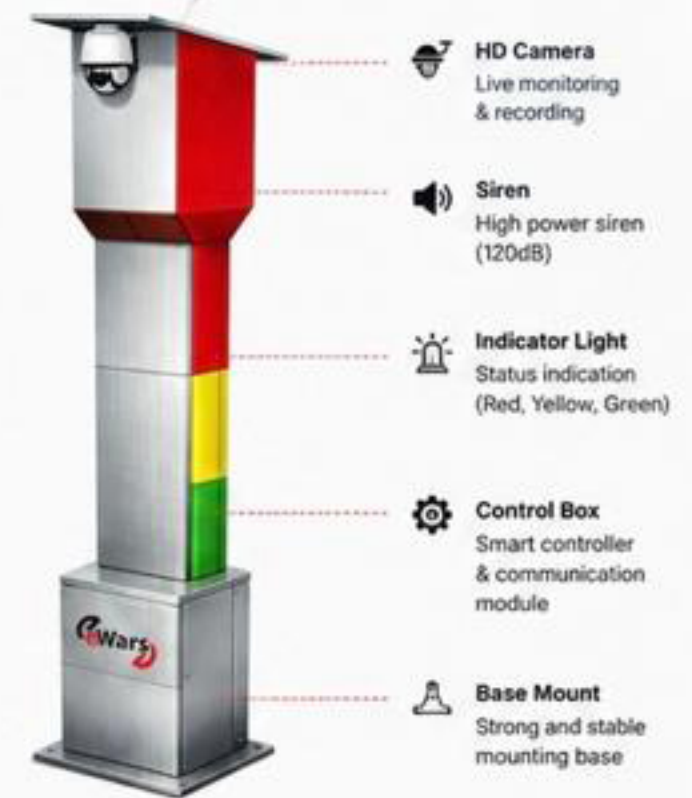

**Real-Time Alert**  
Loud siren and remote notification for faster response.
- 

**Solar Ready**  
Low power consumption design, compatible with solar power.
- 

**Durable & Weatherproof**  
Built for extreme weather and harsh environment.
- 

**Remote Management**  
Configure, monitor and manage devices remotely.

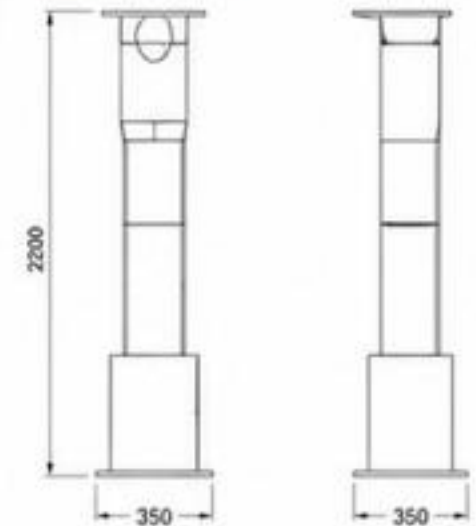

## PRODUCT OVERVIEW

## TECHNICAL SPECIFICATIONS

Model	EW-FW100
Siren Output	120dB @ 1m
Camera	2MP Full HD PTZ Camera
Indicator	LED (Red, Yellow, Green)
Communication	4G / LTE / IoT
Power Supply	AC 220V / DC 12V / Solar (Optional)
Battery Backup	Up to 48 Hours
Operating Temperature	-20°C to +60°C
Material	Stainless Steel / Powder Coated
Weight	65kg
Dimension (WxDxH)	350 x 350 x 2200 mm
Protection Rating	IP66
